SUMMARY

Entry-Level Full Stack Web Developer with 6 months of hands-on experience in Python, Django, HTML, CSS, JavaScript, and C. Adept at building scalable web applications with a focus on clean, efficient code and reusable components. Passionate about developing user-friendly solutions and continuously improving technical skills. Excited to contribute to collaborative projects in a dynamic environment.

PROJECTS

PET STORE (HTML, CSS, Bootstrap, MySQL, Python, Django)

- Implemented user authentication, search functionality, and a seamless product and adoption listing interface.
- Optimized data management with MySQL for fast and efficient database queries.
- Delivered a mobile-responsive design, contributing to a 15% increase in user retention.
- Achieved 30% faster page load times through performance optimization.
- <https://github.com/dharmesh0111/Pet-Store>

E-learning Platform (CODE PATHSHALA)

- Developed a comprehensive e-learning platform using Python, Django, HTML, CSS, JavaScript, and Bootstrap, supporting over 500+ users.
- Established key features such as user authentication, profile upload details, and course details with downloadable notes.
- Integrated certificate and acknowledgment downloads for completed courses.
- Designed progress tracking for users to monitor their course completion rates.
- Incorporated interview questions and assessments for practice, contributing to a 20% increase in user engagement.
- <https://github.com/dharmesh0111/Code-Pathshala>

CRUD Project (HTML5, Bootstrap, Python, MySQL, Django)

- Applied functionalities to add, update, delete, and view student records, ensuring data integrity and security across the application.
- Created a user-friendly interface that reduced data entry time by 30%, enhancing user experience.
- Focused on best coding practices, ensuring scalability to accommodate future growth of up to 500+ records.

CALCULATOR (HTML, CSS, JavaScript)

- Developed a responsive, user-friendly interface, enabling seamless access on various devices.
- Built basic arithmetic operations, ensuring accurate calculations and efficient performance.
- Implemented error handling features to manage invalid inputs, ensuring a smooth user experience and improving application reliability.
- <https://github.com/dharmesh0111/Currency-Convertor>

CURRENCY CONVERTOR (HTML, CSS, JavaScript, Fetch API)

- Enforced the Fetch API to retrieve real-time exchange rates from external sources, supporting over 50 currencies.
- Contributed to a 25% increase in daily user interactions through an intuitive design and functionality.
- Optimized performance to achieve 40% faster load times compared to previous versions.
- <https://github.com/dharmesh0111/Currency-Convertor>

SKILLS

- **Programming Languages:** JavaScript, Python, C
- **Web Development:** HTML5, CSS, Bootstrap, Django
- **Database Management:** SQL
- **Cloud:** AWS (Amazon Web Services)
- **Version Control:** Git
- **Agile Development**
- **Software Testing**
- **Problem Solving**
- **Team Collaboration**

HOBBIES

- Calisthenics
- Problem Solving
- Writing Songs

PROFESSIONAL COURSE

- Master in Full Stack Web Development (IT Vedant Education)
Grade: A (2024)

ACADEMIC DETAIL

- Bachelor of Commerce (B.Com) Somaiya College of Science and Commerce, Mumbai
Grade: B (2022)

CERTIFICATES

- Thunder Bytes Tournament Certificate
- IBM Python for Web Development
- Master in Full Stack Web Development with AWS
